Control Panel		
Glossary		

Chapter 1: Introduction to the Control Panel

Overview

The Control Panel is divided into four (4) main sections: *Account Glance*, *Resources Available*, *Language*, and *Options*. The Account Glance section describes basic account information. Resources Available displays the amounts of your resources that you've used, and how much you have left. The Language section is an opportunity to set the language in which you access your Control Panel. Options are the features included in your Control Panel; they are represented by icons.

Account Glance

Domain Name: **screenshot.com**
Domain User: **screen**
Domain IP: **64.176.34.250**
Package: **Economy**
E-mail: **testing@screenshot.com**
Contract Length: **1 Month(s)**
Status: **Normal**
Signup Date: **07/30/04**

Domain Name Your domain name (the address users type into their browser to access your website).

Domain User The username you use to log into the Control Panel.

Domain IP The numerical internet address of your domain.

Package The base package of your domain. Your package determines the options available to you in your Control Panel.

Email Your main email address.

Contract Length The length of the contract you have with your hosting provider for your Control Panel.

Status Your Control Panel's current status. Generally, this is *Normal*, but can also be *Grace Period* or *Suspended*. *Grace Period* means that payment for your domain is late, but your hosting provider has given you a grace period to settle the outstanding account before your account is *Suspended*.

Signup Date The date you signed up for your account.

Resources Available

The Resources Available shows resource use by resource name, how much of the resource has been used, and how much of resource is still available for use. This information will be displayed in either a graph or text-based table.

User Databases On MySQL enabled domains, you are allowed to add a certain number of databases.

Disk Quota The amount of space your domain may occupy on the server.

Email The number of POP and IMAP email accounts you may give out.

Mailing List The number of mailing lists you may create to be hosted on your domain.

MySQL Quota The amount of space your databases may occupy on the server.

Transfer The amount of data that may pass in and out of your domain during a 30-day period.

Control Panel Language

You may change the language in which you view your Control Panel to *English*, *Spanish*, *German*, or *French*.

To change the Control Panel Language:

Select the language desired from the drop-down menu.

Options

The features that are available to you to manage your domain are listed in the *Options* section. Each feature is represented by an icon and a title.

To access a particular feature:

Click that feature's icon.
